MEMORANDUM FOR: Chief, Domestic Communications Staff

FROM: William W. Wells  
Deputy Director for Operations

SUBJECT: Processing and Distribution of Restricted  
Handling Traffic

1. Your office has discussed with representatives of this Directorate a proposal to transfer the processing and distribution of Restricted Handling traffic from the Special Center to the Cable Secretariat. After a review by components utilizing this channel of the procedures involved, I accept your assurances that this transfer will mean both more secure and efficient processing of this traffic. I therefore approve the following procedures:

- a. The processing and distribution of Restricted Handling traffic belonging to the Operations Directorate will be transferred to the Cable Secretariat. The timing of this transfer is left to you.
- b. The previous distribution procedures as far as the offices using this channel, those authorized to receive this traffic, the number of copies distributed, etc. will remain the same. The Office of the DDO will continue to receive one copy of all incoming and outgoing RH traffic and will be responsible for selecting individual messages to be brought to the attention of the DCI and DDCI.
- c. Directorate of Operations users of this channel

- 2 -

will continue to be responsible for the indexing and filing and other storage and retrieval processing of the traffic originated by or addressed to their component.

William W. Wells

1. I mentioned at a morning meeting in your absence the other day that the Vice President, while in [REDACTED] asked that our telecommunications facilities be used to establish a secure circuit with the White House as he wished to talk with the President. The circuit was immediately established, tested, and was operational. The Vice President then decided not to have the conversation.

2. The attached Communications service cable has been received from the Vice President [REDACTED] I thought you would like to be aware of it.
